

2015-2016 ISPOR Board of Directors Election – Candidate Information

The International Society for Pharmacoeconomics and Outcomes Research (ISPOR) is a member-based organization led by a diverse Board of Directors and professional staff who work collaboratively to ensure ISPOR is strategically positioned and effectively serving its membership. The ISPOR Board of Directors consists of the Officers (President, President-Elect, Immediate Past President), and seven Directors. The Board term of office for the President is one year as President-Elect, one year as a President, and one year as a Past President. Members of the Board of Directors are elected to 2-year terms by a vote of the Membership.

The ISPOR Nominations Committee is responsible for selecting candidates as well as pairing candidates to balance representation of professional experience and backgrounds on the ISPOR Board of Directors. After extensive review and deliberation on more than 60 nominees, the ISPOR Nominations Committee has recommended the following slate of candidates for the 2015-16 Board election.

All members are strongly encouraged to review candidate backgrounds and vote in this election. ISPOR is a member organization and your vote is important in identifying future Board Members.
