

ISPOR 19th Annual European Congress

29 October - 2 November 2016

Austria Center Vienna, Vienna, Austria

*Managing Access to Medical Innovation:
Strengthening the Methodology-Policy Nexus*

CALL FOR ABSTRACTS

Abstract Submission Opens: **21 March 2016** / Abstract Submission Deadline: **21 June 2016**

Early Registration Deadline: **20 September 2016**

Why Submit to ISPOR Vienna?

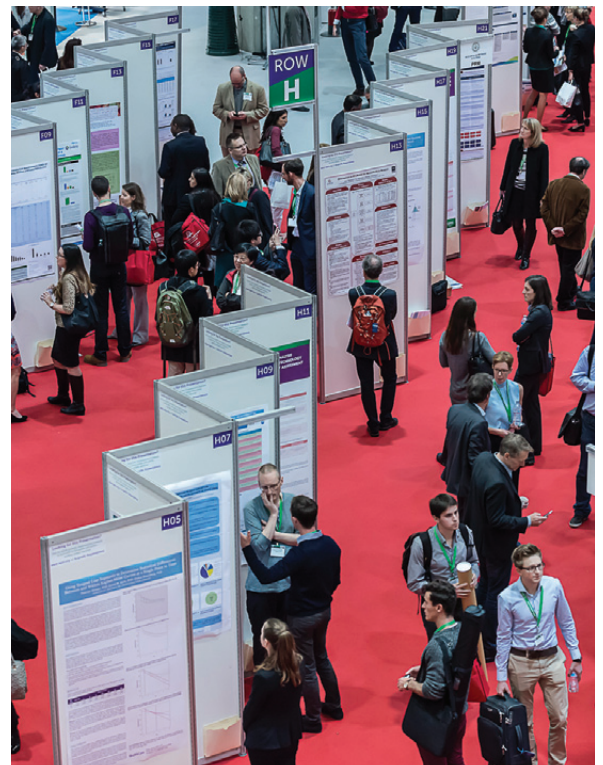

ISPOR is recognized globally as the leading educational and scientific organization for health economics and outcomes research (HEOR) and its use in health care decisions. The European Congress is the place to share your new research as a podium or poster presentation, interact with attendees during a workshop discussing innovative experiences in outcomes research, or debate your views on a controversial topic in an issue panel session.

- **Audience:** More than 5,000 delegates anticipated from the global HEOR community, including global leaders, policy makers, regulators, researchers, academicians, payers, decision makers, patients, and patient groups.
- **Advance the Science:** Contribute your research, ideas, and knowledge.
- **Research Impact:** The attendee profile, ISPOR's international recognition, and the promotion and dissemination of congress content have the ability to extend the impact of your research.
- **Career Development:** Be part of this global network, become eligible for presentation awards, and be published in *Value in Health* (all accepted research included).

No fee for abstract submission.

Contribute to the program for ISPOR Vienna!

(Submission Deadline is 21 June 2016).

ISPOR 19th Annual European Congress

Abstract Submission Information

ISSUE PANEL PROPOSALS

Issue panel proposals are designed to show real debate and stimulate discussion on a new or controversial issue in health economics and outcomes research or its use in health care decision making. Speakers include: 1 moderator and 2-3 panelists representing different organizations. Panelists should present the involved stakeholders' perspectives and distinct/opposing views. Issue panels are 1-hour presentations with time for Q & A.

WORKSHOP PROPOSALS

Workshop proposals are designed to discuss new and innovative applications in the conduct and use of HEOR, the latest on real world data, health care policy, and clinical, economic, or patient-reported and patient preference outcomes. Speakers include: 2-4 discussion leaders representing different organizations. Workshops are 1-hour presentations and an audience interactive element must be included in the proposal and during the workshop.

RESEARCH ABSTRACTS

Outcomes research on all health care interventions, diseases, or health disorders are considered. Abstracts are evaluated on the quality of the study (or concept) and quality of the abstract presentation. Research is presented as a poster presentation (with an author discussion hour) or as a 15-minute podium presentation. Research abstracts (except for conceptual papers) must be organized by Objectives, Methods, Results, and Conclusions. All accepted research abstracts are published in *Value in Health* as submitted. A research abstract that was accepted for another meeting and copyright has been transferred cannot be submitted to an ISPOR meeting.

Program Highlights

PLENARY SESSIONS

First Plenary Session: What Synergies Could Be Created between Regulatory and HTA Assessments?

Second Plenary Session: Differential Pricing of Medicines in Europe: Implications for Access, Innovation, and Affordability
