Join Renowned Experts in HEOR!

ISPOR meetings are a forum for discussion and dissemination of information surrounding the science of health economics and outcomes research (HEOR). The meetings bring together experts in the HEOR field to share innovative research methods and health policy developments and to provide an opportunity to learn from each other.

“EU ISPOR is the largest of the ISPOR conferences and additionally, to my mind, includes the most forward thinking countries and chapters when it comes to HEOR research, methods and policy.”
– ISPOR 18th Annual European Congress attendee*

Why Attend?

ISPOR is recognized globally as the leading scientific and educational organization for outcomes research and its use in health care decisions.

- **Learn** through new and novel experiences in the conduct/use of HEOR.
- **Stay current** via cutting edge plenary sessions and presentations on innovative and controversial issues.
- **Share** research, ideas, and developments in the field and help to advance the use of HEOR globally.
- **Network** and renew connections with clients, colleagues, and/or collaborators.
- **Accomplish** your educational and career development goals by participating in the ISPOR Short Course Program.

“This was an excellent opportunity to learn and add to my knowledge about the latest developments in the field of pharmacoeconomics and allied disciplines. I had a great opportunity to interact with students and scientists coming from around the world for the ISPOR 20th Annual Meeting.” – ISPOR 20th Annual International Meeting attendee*

Who Attends?

The ISPOR scope and sphere of influence includes outcomes researchers, health technology developers and assessors, regulators, health economists, academicians, health care policy makers, payers, providers, patients, and others interested in the field of HEOR.

The diversity of attendees' work environments and international scope of attendance provide excellent networking opportunities and stimulating discussions and debate.

ISPOR 2015 meetings welcomed almost 10,000 attendees from more than 100 countries, with over 4,650 presentations given!
