SUNTEC SINGAPORE
CONVENTION &
EXHIBITION CENTER

SINGAPORE

**EARLY REGISTRATION DEADLINE:
TUESDAY, 19 JULY 2016**

PROGRAM

Pharmacoeconomics and Outcomes Research in Asia-Pacific: Challenges, Opportunities, and Future Direction

**JOIN COLLEAGUES AND HEAR FROM
RENOWNED EXPERTS IN THE HEOR FIELD!**

The International Society for Pharmacoeconomics and Outcomes Research (ISPOR) is recognized globally as the leading scientific and educational organization for health economics and outcomes research (HEOR) and its use in health care decisions.

- **Learn** new and novel applications in the conduct and use of HEOR.
- **Engage** with renowned experts in the field.
- **Network** with colleagues, collaborators, and clients.
- **Share** research, ideas, and developments in an open objective environment.
- **Advance** your career by participating in the ISPOR Short Course Program.
- **Stay current** on HEOR regulatory and policy issues.

#ISPORSINGAPORE

TRENDING TOPICS FOR ISPOR SINGAPORE:

- Real World Evidence • Patient Preferences • Health Utilities
- Economic Modeling • Value Assessments • Universal Health Care
- Precision Medicine • Medical Devices
- Oncology • Multiple Criteria Decision Analysis (MCDA)
- Patient Adherence • Pricing & Reimbursement
- Budget Impact Studies • Risk Sharing Agreements • HTA
- Patient Voice in Health Care Decision Making

**WHAT DOES AN ISPOR ASIA-PACIFIC
CONFERENCE OFFER?**

Asia-Pacific is a particularly dynamic region for health care, with widespread and rapid changes occurring in health care reform (universal health care and access to treatment), health technology assessment development, and revolutions in data integration. The ISPOR Asia-Pacific Conference provides the opportunity to capture all of these recent developments as well as to share information and learn from leading experts in the region.

Who Attends ISPOR conferences?

The ISPOR scope and sphere of influence comprises the international HEOR community: global leaders, policy makers, regulators, researchers, academicians, payers, decision makers, patients, and patient groups. This multi-stakeholder group is invested in using science and research to make better health care decisions.

ISPOR's 2014 Asia-Pacific Conference welcomed 1,260 attendees from 55 countries, and facilitated more than 600 presentations!

ISPOR 7TH ASIA-PACIFIC CONFERENCE

Pre-Meeting Short Course Program

The ISPOR Short Course Program, offered in conjunction with ISPOR conferences as a series of 4-hour training courses, is designed to enhance your knowledge and technique in seven key topic areas (“Tracks”) related to health economics and outcomes research. Short courses range in level from Introductory to Advanced and are taught by leading experts in the field, many with hands-on training opportunities!

Separate Short Course registration is required!

SHORT COURSES ARE OFFERED SATURDAY, 3 SEPTEMBER AND SUNDAY, 4 SEPTEMBER IN THE FOLLOWING TOPIC AREAS:

ECONOMIC METHODS

- Introduction to Pharmacoeconomics/Health Economics
- Cost Effectiveness Analysis alongside Clinical Trials
- Budget Impact and Cost Analysis

MODELING METHODS

- Introduction to Modeling
- Modeling: Design and Structure of a Model

OBSERVATIONAL DATA METHODS

- **New!** Health Care Data and Informatics
- Retrospective Database Design and Analysis

OUTCOMES RESEARCH METHODS

- Meta-Analysis and Systematic Literature Review in Comparative Effectiveness Research
- Network Meta-Analysis and Indirect Treatment Comparisons

PATIENT-REPORTED OUTCOMES METHODS

- Patient-Reported Outcomes Measures (PROMs): Cross-Cultural Development and Validation

PATIENT PREFERENCE METHODS

- Health-Related Quality of Life (HRQOL) Weights for Economic Evaluations

USE OF PHARMACOECONOMIC / ECONOMIC / OUTCOMES RESEARCH INFORMATION

- Elements of Pharmaceutical/Biotech Pricing
- **New!** Case Studies in Pharmaceutical/Biotech Pricing II – Advanced
- Introduction to Health Technology Assessment
- Case Studies in Health Technology Assessment
- Statistical Considerations in Health Economic Evaluations
- Risk-Sharing/Performance-Based Schemes for Drugs & Medical Devices
- **New!** Health Care Systems in Asia

SHORT COURSE REGISTRATION INFORMATION EARLY REGISTRATION DEADLINE: 19 JULY 2016

	THRU 19 JULY 2016	AFTER 19 JULY 2016
Regular:	US\$125 (SGD 175)	US\$200 (SGD 280)

ISPOR 7TH ASIA-PACIFIC CONFERENCE

Plenary Sessions Featured at ISPOR Singapore

FIRST PLENARY SESSION: HEALTH TECHNOLOGY ASSESSMENT AND HEALTH POLICY: RECENT DEVELOPMENTS ACROSS ASIA

Health systems in Asia are undergoing a period of rapid change as they struggle to cope with immediate challenges, such as expanding elderly populations, growing demand for high-quality health care and the need to address inequitable access to health care. In light of these issues, health technology assessment (HTA) will be essential as a means to inform evidence-based decisions and ensure efficient use of scarce resources. This session will provide insight into the current status of HTA and related health policy in Asia, sharing perspectives and experiences, lessons learned, and future trends.

Moderator: Syed Aljunid, MD, PhD, Professor, Health Economics & Public Health Medicine and Head, International Centre for Casemix and Clinical Coding, Faculty of Medicine, National University of Malaysia, Kuala Lumpur, Malaysia

Speakers: Visanu Thamlikitkul, MD, Professor, Department of Medicine, Head of Division of Infectious Diseases and Tropical Medicine, Faculty of Medicine, Siriraj Hospital at Mahidol University, and Former Chair, Subcommittee of National List of Essential Medicines, Bangkok, Thailand; **Takashi Fukuda, PhD**, Director, Department of Health and Welfare Services, National Institute of Public Health, Saitama, Japan; **Tae-jin Lee, MPH, PhD**, Professor, Health Economics, School of Public Health, Seoul National University and President, Korea Association of Health Economics and Policy, Seoul, South Korea; **Ng Kwong Hoe**, Head, Evaluation and Appraisal, Agency for Care Effectiveness, Ministry of Health, Singapore

SECOND PLENARY SESSION: HARNESSING THE POWER OF BIG DATA TO MAKE BETTER HEALTH CARE DECISIONS IN THE ASIA-PACIFIC REGION

Health care in Asia is embracing the global big data movement since big data has tremendous potential to add value in all health care settings. This session will discuss key ways in which big data can deliver value through clinical and financial benefits to health systems, such as aiding personalized medicine and streamlining health resource planning. It will also discuss current challenges and opportunities for utilizing big data to improve health care decision making in the Asia-Pacific region while addressing multi-stakeholder perspectives and regional considerations.

Moderator: Louisa Jorm, PhD, Professor & Director, Centre for Big Data Research in Health, University of New South Wales (UNSW), Sydney, Australia

Speakers: Walter Harris, MBA, PMP, Deputy Commissioner for Operations/Chief Operating Officer, U.S. Food and Drug Administration (FDA), Silver Spring, MD, USA; **Christopher Chute, MD, DrPH**, Bloomberg Distinguished Professor of Health Informatics, Professor of Medicine, Public Health, and Nursing, and Chief Health Research Information Officer, Johns Hopkins Medicine, Johns Hopkins University, Baltimore, MD, USA; **Trish Williams, PhD**, Associate Professor & Associate Dean, School of Computer and Security Science, Edith Cowan University, Joondalup, Australia; **Chong Yoke Sin, PhD**, Chief Executive Officer, Integrated Health Information Systems Pte Ltd, Singapore

THIRD PLENARY SESSION: UNIVERSAL HEALTH COVERAGE – THE AFFORDABLE DREAM IN ASEAN: EXPERIENCES AND LESSONS LEARNED

The vast diversity in the historical, socio-economic, cultural, and political spheres has contributed to highly divergent health statuses and health systems across countries of the Association of Southeast Asian Nations (ASEAN). With increasing educational levels and affluence, ageing populations, availability of new health technology, and growing consciousness of human rights in this region, the demand for universal health coverage (UHC) of affordable and good quality health services is increasing. While a few countries in ASEAN, such as Singapore and Thailand, have already achieved UHC, others are moving towards it. This session will discuss the current situation, challenges, and opportunities of UHC with the aim of sharing experiences and supporting each other in the joint pursuit of UHC in ASEAN.

Moderator: Ahmad Fuad Afdhal, PhD, Director, Center for Socio-Economic Studies in Pharmacy, Jakarta, Indonesia

Speakers: Netnapis Suchonwanich, Former Deputy Secretary General, National Health Security Office (NHSO), Bangkok, Thailand; **Kun Zhao, MD, PhD**, Professor & Director, Division of Health Policy Evaluation and Technology Assessment, China National Health Development Research Center, National Health and Family Planning Commission (NHFP), Beijing, China; **Syed Aljunid, MD, PhD**, Professor, Health Economics & Public Health Medicine and Head, International Centre for Casemix and Clinical Coding, Faculty of Medicine, National University of Malaysia, Kuala Lumpur, Malaysia; **Graham Harrison, PhD**, World Health Organization Representative to Malaysia, Brunei Darussalam, and Singapore, World Health Organization (WHO), Kuala Lumpur, Malaysia

Make the most of ISPOR Singapore!

The ISPOR 7th Asia-Pacific Conference provides unique opportunities to connect with professionals, colleagues, and key opinion leaders from the Asia-Pacific region and from countries around the world.

Networking

- Continue session discussions with colleagues during coffee breaks or over lunch in the Poster and Exhibit Hall.
- Attend the Welcome Reception, featuring a cultural performance, on Saturday evening and the ISPOR Asia Consortium Reception on Sunday evening to catch up with colleagues, make new connections, and meet key opinion leaders.
- Explore the Exhibit Hall to find products and services that meet your needs.
- Connect with other attendees and schedule meetings via the ISPOR Singapore mobile app and web platform (*available approximately one month prior to the conference*).

ISPOR Groups

Collaborate with members of the ISPOR Asia Consortium during Invitational Meetings! Members worldwide actively participate in ISPOR working groups and the Asia Consortium to advance global health outcomes research and the use of this research in health care decisions.

- The ISPOR Asia Consortium Business Meeting, working committee meetings, and Asia-Pacific regional chapter meetings will be held at the ISPOR 7th Asia-Pacific Conference. To get involved, contact asiaconsortium@ispor.org or visit the ISPOR Asia Consortium website at <http://www.ispor.org/consortiums/asia.asp> for more information.
- Attend the ISPOR Asia Consortium Special Forums presented by various ISPOR groups such as the Asia Consortium Complementary & Alternative Medicine Working Group and the Asia Consortium Young Professionals Group.

Exhibits

Explore exhibits and connect with organizations that provide relevant professional services, products, job opportunities, and more! Be sure to explore exhibitor virtual booths via the ISPOR website (<http://www.ispor.org/Event/Exhibitors/2016Singapore>) and the ISPOR Singapore mobile app and web platform (*available approximately one month prior to the conference*).

ISPOR would like to thank the current sponsors of the ISPOR 7th Asia-Pacific Conference: (Sponsors as of April 2016)

Azmi Burhani Consulting, Kantar Health, Pharmerit International, Taylor & Francis, and Quintiles

ISPOR Highlights in Asia-Pacific

About ISPOR

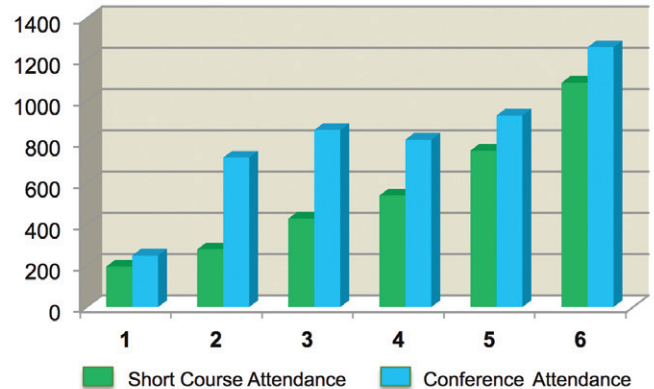

Founded in 1995 as an international multidisciplinary professional membership society, the International Society for Pharmacoeconomics and Outcomes Research (ISPOR) advances the policy, science, and practice of pharmacoeconomics (*health economics*) and outcomes research (*the scientific discipline that evaluates the effect of health care interventions on patient well-being including clinical, economic, and patient-centered outcomes*).

With a 20-year commitment to education, collaboration, and leadership, ISPOR meetings, published resources, and facilitated discussions have evolved as the leading resources for health economics and outcomes research. Moreover, as an unbiased organization of 9,500 individual and student members from 114 countries, and over 8,700 affiliate members from our Regional Chapters, ISPOR members represent the entire field including research, academia, decision and policy makers, consultants, payers, patient representative groups, and others.

Membership in Asia-Pacific

More than 2,250 ISPOR members in Asia-Pacific – over 17% of total ISPOR Membership!
