**HTA AND HEOR WORKSHOP HELD ON 29TH JULY 2015, NAIROBI, KENYA  
FACILITATORS BIO-DATA**

**Lou Garrison, PhD**  
**Professor, Health Economics**

**University of Washington**

**Pharmaceutical Outcomes Research and Policy Program**

<http://sop.washington.edu/departement-of-pharmacy/pharmaceutical-outcomes-research-policy-program-porpp/>

Louis P. Garrison, Jr., PhD is Professor in the Pharmaceutical Outcomes Research and Policy Program in the School of Pharmacy, and Adjunct Professor in the Departments of Global Health and Health Services at the University of Washington, where he joined the faculty in 2004. He also co-directs the Global Medicines Program in Global Health.

Dr. Garrison's career began with 13 years in non-profit health policy research at the Battelle Human Affairs Research Centers (Seattle), and at the Project HOPE Center for Health Affairs (Virginia), where he was the Director from 1989-1992. Following this, he worked as an economist in the pharmaceutical industry for 12 years. From 2002-2004, he was Vice President and Head of Health Economics & Strategic Pricing in Roche Pharmaceuticals, and was based in Basel, Switzerland.

Dr. Garrison received a BA in Economics from Indiana University, and a PhD in Economics from Stanford University. He has more than 100 publications in peer-reviewed journals. His research interests include national and international health policy issues related to personalized medicine, benefit-risk analysis, insurance, pricing, reimbursement, and risk-sharing agreements, as well as the economic evaluation of pharmaceuticals, diagnostics, devices, surgical procedures, and vaccines, particularly as related to organ transplantation, influenza, measles, obesity, and cancer.

From 2007-2009, Dr. Garrison served on the ISPOR Board of Directors. He co-chaired two ISPOR Good Practice Task Forces—on Real-World Data and on Performance-Based Risk-Sharing Arrangements, and he chaired the ISPOR Health Science Policy Council from 2012 to 2015. He is faculty advisor for the UW ISPOR Student Chapter, and is ISPOR President-elect for 2016-17.

## ISPOR KENYA CHAPTER

**Joseph B. Babigumira, MBChB, MS, PhD**

**Assistant Professor, Health Economics**

**University of Washington Global Medicines Program**

[www.globalmedicines.org](http://www.globalmedicines.org)

Dr. Babigumira is an Assistant Professor of Global Health and Adjunct Assistant Professor of Pharmacy at the University of Washington in Seattle, WA, USA. He went to medical school at Mbarara University of Science and Technology in Mbarara, Uganda and practiced for 3 years at Mbarara Hospital before pursuing graduate studies. Dr. Babigumira graduated with a PhD in Health Economics from the Pharmaceutical Outcomes Research and Policy Program in the University of Washington's School of Pharmacy where he trained in decision analysis, health economics, health outcomes, and pharmacoepidemiology. He also holds a Master's degree in Health Services from the School of Medicine and Public Health at Case Western Reserve University in Cleveland, OH, USA. For the last 10 years he has practiced as a health economist with a focus on sub-Saharan Africa. His main research interest is improving access to safe and cost-effective diagnostic technologies, medicines, and healthcare delivery platforms in low-income countries. Dr. Babigumira's current work is in the area of HIV prevention with an active study of incentives for safe medical male circumcision. He also works in maternal health, health worker training, and development of health technology assessment in low-income countries. He works actively with Master's and PhD students in the USA and in Uganda. He teaches courses in health economic methods, health technology assessment, and global health pharmacy.
